### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The closest prior art is considered to Wu et al., Angewandte Chemie International Edition, 39(21), page 3933-3935, (2000). Wu et al. teaches luminescent trinuclear palladium complexes for organic light emitting devices (see page 3933, first paragraph of article and Figure 2 compound, page 3934). The Wu et al. compounds differ from the luminescent compounds described for the device of instant claim 1 in that the Wu et al. ligands are N<sup>^</sup>C<sup>^</sup>N rather than N<sup>^</sup>N<sup>^</sup>C as required by instant claim 1. The prior art fails to disclose or to render obvious a compound as set forth in claim 1 as a light emitting material in an electroluminescent device. Accordingly, claims 1-31 are allowed.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
